

Project Design Phase-I Solution Architecture

Date	13 October 2022
Team ID	PNT2022TMID53373
Project Name	Project - Personal Expense Tracker Application
Maximum Marks	4 Marks

Solution Architecture:

In order to connect business issues with technological solutions, solution architecture is a complicated process with numerous sub-processes. Its goals are to:

- Track down the most effective technological remedy for current business issues.
- Explain to project stakeholders the structure, traits, behavior, and other features of the software.
- Specify the features, stages of development, and requirements for the solution.
- Offer guidelines for how the solution is created, managed, and delivered.
